## Why publish with F1000Research?

### No editorial bias

Enables authors, not editors, to decide what they wish to publish. Your article won't be judged on novelty or impact.

### Fast publication

All types of research can be published rapidly: traditional articles, data sets, null results, protocols, case reports, incremental findings and more.

### Transparent refereeing

Open, invited peer review of articles is conducted after publication, removing the secrecy and anonymity that can bias the way scientists critique each other's work, creating a constructive process.
