Research THINK LAB – Zurich

The world is at a major turning point: technology is enabling entirely new forms of business operations, business models, industries and outcomes. We have exponentially more power to reach the full potential of our life’s work than any humans before us. This is our vision for the future.

The IBM Research THINKLab in Zurich is a unique place in Europe where senior decision makers of governments, enterprises and academia connect directly with IBMs researchers and their work to inspire and incubate transformations and disruptions.

Do you want to be part of this journey? We are looking for a

Working Student (50%)

Your tasks and projects may include:
- Help enhance the visibility of the THINKLab and its offerings to existing and new internal and external customers to generate high-profile visits and workshops.
- Support the execution of THINKLab’s communications activities
- Support major events and activities, incl. content preparation, communication
- Interlock with European IBM Client Centre Network
- Generate regular highlight stories about the THINKLab in internal media such as connections, communities, blogs (with the THINKLab consultants).
- Produce quarterly You Tube Movies and Webinars (with THINKLab consultants).
- Support special projects

Your qualifications:
- Preferably bachelor or master student. Business Informatics, Economics or Communications
- Very strong communication skills – written and spoken (English and German)
- Interest in Information Technology, Science and Research

This position is available from April 1st, 2018 for a duration of one to two years or until the end of the studies.

We offer a diverse, independent professional activity, with experienced colleagues in a friendly atmosphere. You will find a dynamic, multi-cultural environment, and flexible work conditions that can be adjusted to your professional experience and your private environment.

Please send your complete applications documents by email to Ms. Judith Blanc, jko@zurich.ibm.com, Human Resources, IBM Research GmbH in Rüschlikon.

Note: We neither consider applications of employment agencies nor of employment consultants.
