

Microbiology Seminar HS 2020

	November 2020				December 2020		
	Fri 6 15:00 – 16:00	Fri 13 15:00 – 16:00	Fri 20 15:00 – 16:00	Fri 27 15:00 – 16:00	Fri 4 15:00 – 16:00	Fri 11 15:00 – 16:00	Fri 18 15:00 – 16:00
Lars Thalmann	OK						
Jeruscha Baum	OK						
Gabriela Purtschert		OK					
Johanna Giger			OK				
Sabrina Brülisauer			OK				
Ratchara Kalawong				OK			
Giulia Bottacin					OK		
Mathias Hess					OK		
Stefano Gualdi						OK	
Leonardo Paganini							OK

Presentation titles:

Lars Thalmann	?
Jeruscha Baum	S.aureus persister modulation and evasion of the innate immune system
Gabriela Purtschert	Pseudomonas contact-dependent competition in mixed-species Biofilms
Johanna Giger	Testing the evolutionary robustness of novel pyoverdine treatments against human opportunistic pathogens
Sabrina Brülisauer	Regulation of Legionella Amoeba interactions within biofilms by the Lqs-LvbR regulatory network
Ratchara Kalawong	Influence of putisolvin on membrane vesicle and nanotube formation in P.putida IsoF
Giulia Bottacin	?
Mathias Hess	?
Stefano Gualdi	?
Leonardo Paganini	Establishing the role of diazeniumdiolate compounds as signal molecules.
