

Monday Seminar
Lecture hall 35F32, 12:30pm

FS 2016

Date	Speaker	Title of seminar
22 February 2016 Host: I. Mansuy	Fekrije Selimi (Collège de France, Paris, F)	Synapse diversity and molecular identity in cerebellar Purkinje cells
29 February 2016 Host: M. Schwab	Hartmut Wekerle (MPI Frankfurt, DE)	Intestinal Microbiota and multiple Sclerosis – 100 trillion of game changers
07 March 2016 Host: R. Wehner	Axel Borst (MPI Martinsried, DE)	Neural circuits for elementary motion detection
14 March 2016 Host: S. Jessberger	Tuncay Baubec (UZH, CH)	Regulation and Function of DNA methylation
21 March 2016 Host: I. Mansuy	Johannes Graeff (EPFL, CH)	Remote memory traces-cellular and molecular underpinnings of remote fear memory attenuation
04 April 2016 Host: F. Helmchen	Stefan Remy (DZNE, Bonn, DE)	Subcortical control of neuronal activity in hippocampus and entorhinal cortex
11 April 2016 Host: F. Helmchen	Hanns Ulrich Zeilhofer (UZH, CH)	Spinal interneurons and circuits in sensory processing
18 April 2016	Sechseläuten	
25 April 2016 Host: S. Jessberger	Paul Frankland (Toronto, CA)	Hippocampal neurogenesis and forgetting
2 May 2016 Host: I. Mansuy	Verdon Taylor (University of Basel, CH)	Post-transcriptional routes to cell fate determination in the brain
9 May 2016 Host: M. Schwab	Bror Alstermark (Universität Umea, SE)	Neural circuits for skilled reaching and grasping movements
16 May 2016	Pfingsmontag	
23 May 2016 Host: M. Schwab	Ole Kiehn (Karolinska Institut, Stockholm, SE)	Deciphering the Functional Organization of Neural Circuits Controlling Locomotion: Local and Descending Control
30 May 2016 Host: U. Gerber	Judith Makara (The Institute of Experimental Medicine, Budapest, HU)	Cooperative synaptic interactions in pyramidal cell dendrites
06 June 2016 Host: F. Helmchen	Michael Brecht (Humboldt University Berlin, DE)	Sex, Touch & Tickle: The Cortical Neurobiology of Physical Contact
