

Sensing FLOODS

In this multimodal workshop, we will approach urban flooding from different angles, for example through painting, artworks or walks! Does the way we talk, write and draw about floods change our perception and experience of them? Do floods have a gender? And how do we find power in the way we deal with it in our daily lives?

Feb 24
2024

2-5pm, Vietnamese + English
Beanthere Café II
Hẻm 3 Đ. Hoàng Sa, Đa Kao, Quận 1,
Hồ Chí Minh City, Vietnam

organized by Kathrin Eitel + the
research project "Radical
Resilience", with an input by the
artist Lê Phi Long.
