

### **Information on the «LEAPS» parent survey**

Your child is participating in the Zurich Learning Progress Study «LEAPS». This study is conducted on behalf of the Department of Education of the Canton of Zurich. We now cordially invite you to the «LEAPS» parent survey.

The environment in which children grow up has a great influence on their development. We are conducting this parent survey to learn a little about the environment in which your child grows up. The following questions are key to the survey: How does your child like kindergarten? How do you feel as their mother or father? How would you describe your child's behavior? How do you raise your child and spend your time with them?

You can find more information on the study here [«LEAPS» parent survey](#).

You can take the survey online on your computer, tablet, or cell phone. The survey takes around 30 minutes to fill out, and you can pause at any time to return to it later.

All the information you provide in the survey will be kept separate from your contact data you disclose and will of course be evaluated in anonymized form.

To thank you for participating, you will receive 50 Swiss francs if you fill out the questionnaire completely.

Taking part is voluntary.

We appreciate your participation. Thank you very much for your support.

Sincerely,

Prof. Dr. Moritz Daum
