1 General

These transitional regulations refer only to the selective changes in the curriculum (i.e. any changes in the modules and the areas in a study program). All other changes and additions within the context of the introduction of the new framework ordinance (RVO22) are not part of these transitional regulations.

2 Bachelor Minor Programs for Students from other Faculties

2.1 First minor programs (Minor 60).

2.1.1 Minor 60 Economics (B_60_VWL_E)

General notes	The division into assessment and advanced level is no longer applicable. There are now compulsory and core elective modules.
Compulsory area	The division into assessment and advanced level is no longer applicable. There are now compulsory and core elective modules. The module Mathematics I is still a compulsory module. The Statistics module is no longer available for selection as an alternative. Those who have already taken Statistics prior to HS22 may credit it as a compulsory module in place of Mathematics I. Those who have already booked Statistics before HS22 but have not passed, or who have withdrawn from the assessment on short notice, may repeat the module in FS23 and credit it as a compulsory module in the minor. All others must take Mathematics I as a compulsory module beginning in HS22.
Core elective area	-

2.1.2 Minor 60 Business Administration (B_60_BWL_E)

General notes	The division into assessment and advanced levels is no longer applicable. There are now compulsory and core elective modules.
Compulsory area	The module Managerial Accounting is no longer a compulsory module. Students who have already taken Managerial Accounting may credit it in this minor towards the core elective areas of BWL 1 to BWL 6.
Core elective area	In the core elective area, 27 ECTS credits are now to be acquired from the areas of BWL 1 to BWL 6 instead of the previous 24.

2.1.3 Minor 60 Banking and Finance (B_60_BF_E)

General notes	The division into assessment and advanced level is no longer applicable. There are now compulsory and core elective modules.
Compulsory area	<p>The module Statistics is still a compulsory module. The module Mathematics I is no longer available for selection as an alternative.</p> <p>Students who have already taken Mathematics I prior to HS22 may credit it as a compulsory module instead of Statistics in the minor.</p> <p>Students who have already booked Mathematics I prior to HS22 but have not passed, or who have withdrawn from the assessment on short notice, may repeat the module in HS22 and may credit it as a compulsory module in the minor.</p> <p>All others must take the Statistics module as a compulsory module beginning in HS22.</p> <p>The module Corporate Finance is still a compulsory module. The modules Asset Pricing, Banking and Financial Economics are no longer available as alternatives.</p> <p>Those who have already taken Asset Pricing, Banking or Financial Economics prior to HS22 may count it as a compulsory module instead of Corporate Finance in the minor.</p> <p>Those who have booked Asset Pricing, Banking or Financial Economics prior to HS22 but have not passed, or who have withdrawn from the assessment on short notice, may repeat the module in HS22/FS23 and credit it as a compulsory module in the minor.</p> <p>All others must take the Corporate Finance module as a compulsory module from HS22.</p>
