

Networking event: **Meet Your Neighbours**

October 06, 2016

The 3rd round of networking events of the Institute of Psychology took place in BIN 1.D.25.

Doctoral students and post-docs from different chairs from the Depto. of Psychology got together to exchange personal, professional, and research insights.

Insights from ongoing research in 4 chairs were briefly introduced in the first part of the event:

Here some snapshots of the presentations:

„Hot topics in research“

Humor, Playfulness, Irony, Laughter

Positive Psychology

Aspects of personality, test construction, assessment tools

Team

Mathias Allemant, Prof. Dr.
Stefanie Lindner, BSc
Annika Martin, MSc
Mirjam Stieger, MSc
Damaris Aschwanden, MSc
Marko Katana, MSc

Research areas

Personality dynamics of healthy aging

Personality assessment in daily life and in the lab

Personality development in adulthood and old age

Personality-informed interventions and counseling

Longitudinal research methods for studying daily life

Team

Chair
Prof. Dr. Christoph Flückiger

Post-Doctoral
Dr. Andreea Visla

Doctoral candidates
M.Sc. Judith Held
M.Sc. Christine Wolfer

What we do...

Team Kognitive Entscheidungspsychologie

Professor
Bettina von Helversen

Post-doc
Agnes Scholz

PhD candidate
René Schlegelmilch

PhD candidate
Christiane Baumann

A brief introduction to our research...

Research topics: Emotion, Strategy selection, Judgments, Information search, Retrieval processes

Methods: Eye-tracking, Fixation durations, Attention, Cognitive modeling, decisions, Experiments, Response times, Drift diffusion

We kindly thank the presenters for sharing their recent research efforts with the attending Mittelbau.

Their contribution fomented vivid interactions during the Apéro that followed the presentations:

Your 2016 Mittelbau-Anlass team: Alessandra Souza & Rebekka Kuhn
