

Forschungsbudget 2023 – «One Health» Metabolische Erkrankungen

Abouof MA, Gorr TA, Hamdy NM, Gassmann M, Thiersch M (2023). Myoglobin in Brown Adipose Tissue: A Multifaceted Player in Thermogenesis. *Cells*, 12(18):2240.

Cava E, Boyle CN, Ahlin S, Capristo E (2023). Editorial: Bariatric surgery, nutritional aspects and beyond. *Frontiers in Nutrition*, 10:1214952.

Ferri F, Ferro S, Porporato F, Callegari C, Guglielmetti C, Mazza M, Ferrero M, Crinò C, Gallo E, Drigo M, Coppola LM, Gerardi G, Schulte TP, Ricagno S, Vogel M, Storni F, Bachmann MF, Vogt AC, Caminito S, Mazzini G, Lavatelli F, Palladini G, Merlini G, Zini E (2023). AA-amyloidosis in cats (*Felis catus*) housed in shelters. *PLoS One*. 2023 Mar 29;18(3):e0281822. doi: 10.1371/journal.pone.0281822.

Hässig M, Hanimann A, Lewis F, Hartnack S (2023). Zusammenhänge zwischen metabolischen Profilen und 4 Bestandsbetreuung-Scores bei Milchkühen: Statistische Analyse anhand eines additiven Bayesian Netzwerkes. *Tierärztliche Praxis. Ausgabe G, Grosstiere/Nutztiere*, 51(2):77-83.

Jungo O. Cisplatin-induced body weight loss is independent of brainstem prolactin-releasing peptide. 2023, University of Zurich, Vetsuisse-Fakultät.

Leuthardt AS, Boyle CN, Raun K, Lutz TA, John LM, Le Foll C (2023). Body weight lowering effect of glucose-dependent insulinotropic polypeptide and glucagon-like peptide receptor agonists is more efficient in RAMP1/3 KO than in WT mice. *European Journal of Pharmacology*, 955:175912.

Lutz TA (2023). Mammalian models of diabetes mellitus, with a focus on type 2 diabetes mellitus. *Nature Reviews. Endocrinology*, 19(6):350-360.

Moccia V, Vogt AC, Ricagno S, Callegari C, Vogel M, Zini E, Ferro S (2023). Histological evaluation of the distribution of systemic AA-amyloidosis in nine domestic shorthair cats. *PLoS One*. 2023 Nov 2;18(11):e0293892. doi: 10.1371/journal.pone.0293892.

Romano A, Friuli M, Eramo B, Gallelli CA, Koczwara JB, Azari EK, Paquot A, Arnold M, Langhans W, Muccioli GG, Lutz TA, Gaetani S (2023). "To brain or not to brain": evaluating the possible direct effects of the satiety factor oleoylethanolamide in the central nervous system. *Frontiers in Endocrinology*, 14:1158287.

Semsirboon S, Do Nguyen DK, Chaiyabutr N, Poonyachoti S, Lutz TA, Thammacharoen S (2023). High Dietary Cation and Anion Difference and High-Dose Ascorbic Acid Modify Acid-Base and Antioxidant Balance in Dairy Goats Fed under Tropical Conditions. *Animals*, 13(6):970.

Stefanidis A, Lee CM, Greaves E, Montgomery M, Arnold M, Newn S, Budin A, Lemus MB, Foldi CJ, Burton PR, Brown WA, Lutz TA, Watt MJ, Oldfield BJ (2023). Mechanisms underlying the efficacy of a rodent model 1 of vertical sleeve gastrectomy - a focus on energy expenditure. *Molecular Metabolism* 73:101739.

Stenberg K, Novotny GW, Lutz TA, Mandrup-Poulsen T, Bjørnvad CR (2023). Obesity-induced changes in gene expression in feline adipose and skeletal muscle tissue. *Journal of Animal Physiology and Animal Nutrition*, 107(5):1262-1278.

Wirth F, Heitz FD, Seeger C, Combaluzier ;, Breu K, Denroche HC, Thevenet J, Osto M, Arosio P, Kerr-Conte J, Verchere CB, Pattou F, Lutz TA, Donath MY, Hock C, Nitsch RM, Grimm J (2023). A human antibody against pathologic IAPP aggregates protects beta cells in type 2 diabetes models. *Nature Communications*, 14(1):6294.

Widmer J. Novel Appetite Stimulants to Treat Anorexia Nervosa and Anorexia-Cachexia. 2023, University of Zurich, Vetsuisse-Fakultät.

Yassini N, Sprenger J, Pastor Arroyo EM, Krudewig C, Pellegrini G, Joller N, Wagner CA, Imenez Silva PH, 2023. Ovarian cancer G protein-coupled receptor 1 deficiency exacerbates crystal deposition and kidney injury in oxalate nephropathy in female mice. *Clin Sci* 137(14):1013-1025.
