Nucleus®
freedom™

Leading hearing performance.

Nucleus® Freedom™ Cochlear Implant System with SmartSound is designed for exploring an entire world of sound, with a more natural, interactive experience at home, school, work and play.

Baha
Divino™

Hear the difference.

The Baha® System is a unique and predictable solution for conductive and mixed loss hearing impairment. Safe and effective, Baha is used to aid people with chronic ear infections, congenital hearing loss and single sided deafness.
